

The wall cladding system specified by design professionals
and Contractors across the globe.

SureClad is the most advanced upgrade to out dated, standard FRP on the market.

Jemiclad

SureClad

Canadas thermoform-able hygienic kitchen wall cladding.

Like FRP Only Way better

Product Description

Sure Clad is an effective wall covering where hygiene or ease of cleaning is paramount. It is manufactured from the highest quality PVC-U resin, without fillers, so it is 100% recyclable and has a Class A fire rating. The cladding sheets are very easy to handle and cut. The excellent bonding results allow for fast and efficient installation, and they can be thermoformed with ease.

- Smooth, Non-porous, food-safe, protection.
- Co-extruded joint trims to give a water resistant seal.
- Excellent for Thermoforming internal and external corners.
- Ideal replacement for 6"x6" ceramic kitchen tiled walls.
- Most advanced FRP Upgrade and replacement system on the market.
- Can be combined with Jemiclad's other wall cladding products.
- BS Class 0 Fire Propagation and Class 1 Speed of Flame, ASTM E84 Class A fire rated, Can/ULC S102.2, AS/NSZ 3837:1998 Group 1.
- Chemical Resistant, high impact.

Panel Size

Size	Weight
3000x1220mm (118.6" x 48") 1.8mm Thick	7.1kg (15.8lbs)

Environmental protection of tested reliability

Correct storage

Always store Jemiclad sheets on a level surface in a dry, air controlled environment at about 15–20 °C. The packaged sheets may not be exposed to weathering effects and direct sunlight.

Ecological manufacture

In line with our environmental guidelines, Jemiclad PVC-U sheets are safe for all humans and the environment during their manufacture, use, and disposal. Jemiclad products are free of formaldehyde, asbestos, lindane, PCB, PCP, CFCs, cadmium, lead and do not contain any monomers, biocides, or plasticizers. At the end of their service lives, the sheets can be recycled. They can be processed in shredders or grinders by the recycler and then re-introduced to the manufacturing process for the creation of new sheets.

Certified quality

True to our "Ever Better Principle", the acclaimed high quality of Jemiclad products, all bear the hallmarks of our research and development work as well as decades of experience with synthetic materials. Tests are conducted over all stages from the incoming raw materials to the final inspection of the finished products. Regular examinations by independent testing institutes confirm this high level of care. Logically, our quality assurance system has been DIN ISO 9001 certified.

Certifications

Properties	Standard	Unit	Value
Water absorption after 7 days	DIN EN ISO 62	%	<0.08
Fire behaviour: surface spread of flame	BS 476 Part 7 (1987)	Class 1	1–4 mm
		Class 1Y	2.5–3 mm
Fire behaviour: fire propagation	BS 476 Part 6 (1989)	Class 0	
Fire behaviour	DIN 4102 (DE)	B1	1–3 mm
	NF P 92-501 (FR)	M1	1.2–8 mm
	USA - ASTM E84 Class A	M2	10–30 mm
	CAN - Can/UCL-S102.2 UL 94 (USA)	V0/5VB	1–30mm

Jemiclاد SureClad Provides Round The Clock Anti-bacterial Protection

Protection in healthcare

Healthcare associated infections such as MRSA acquired during hospital stays are the most common complications of hospital care and one of the most serious patient safety concerns.

Jemiclاد Products are used in hospitals, dental surgeries, care homes and GP practices around the world in products ranging from beds to cubicle curtains, nurse call systems, walls and ceilings, door kicks all the way to shower surrounds.

Protection for food and catering

Throughout the food chain, good hygiene practices are essential to prevent the spread of E.coli, Campylobacter, Listeria and Salmonella. Jemiclاد PVC Panels can reduce food contamination from bacteria and the risk of food poisoning throughout its preparation, processing, packing and distribution. For example Restaurants use Jemiclاد products in kitchens, dish pits, mop rooms, janitor closets and loading bay areas on walls and are even used as truly washable light weight ceiling tiles.

Protection in the office

Wherever large numbers of people gather together, the chances of exposure to germs and the risk of cross-infection increase. Some office germ hot-spots carry more harmful bacteria than the average toilet seat.

Jemiclاد Products are easily added to any high touch wall surfaces in the workplace, giving complete and ongoing protection against harmful bacteria.

Protection in education

Even if a nursery or a classroom starts out clean, germs can build up throughout the day. Harmful bacteria collect on frequently touched surfaces, especially in areas where there is a lot of hand-to-mouth contact, such as the walls in the class room, lunch room, Washroom, locker room or cafeterias.

Tested and compliant

We know Jemiclاد Products are highly effective at reducing bacteria levels but it is essential that you are just as confident with the Jemiclاد products as well. No amount of protection can compete with a good cleaning and maintenance schedule. But when combined with the great Jemiclاد anti-microbial products, you have a winning combination.

We also work closely with our customers to ensure Jemiclاد Products comply with the required federal and municipal regulations regarding the manufacture, importing and marketing of products.

Specified and trusted by

- Annabel's (Billionaires Club), London, UK - Kitchens, staff toilets & showers and wainscoting.

- Custom built cooler walls and ceilings for many restaurants and cold storage warehousing

All Jemiclاد products are only limited by the imagination. Jemiclاد products are the perfect addition for any wall or ceiling surfaces that would benefit from durability, washability and reliability

Jemiclad is a specially engineered homogeneous, smooth and non-porous wall and ceiling lining, that can be head formed around internal and external corners, reducing the need for corner guards. All joints can either be finished with a Two part colour matched co-extruded trim with water tight neoprene gaskets, a One part value engineered extruded trims or a colour matched flexible caulking, to give the ultimate hygienic surface, and a seamless finish which creates an airtight and watertight lining, Jemiclad is a clear investment that will give returns 24/7 for years to come.

The three part specification is available from our website below.

- Durable and Hygienic.
- Excellent for Welding and Thermoforming.
- Can be printed on (see our special order PhotoJemic range).
- Can be combined with Jemiclad's other wall cladding products.
- ASTM E84 Class A fire rated, BS Class 0 Fire Propagation and Class 1 Spread of Flame, CAN UCL S102.2 tested and AUS-ASNZS 3837 1998 Group 1, EU EN13501B-S3-D0.
- Chemical Resistant and great impact resistance.
- 20 year product warranty.
- Can be combined with flash coving, poured floors and traditional tiles.

Typical Applications

- Health Care
- Commercial Kitchens
- Operating Theatres
- Pharmaceutical
- Clean Rooms
- Education
- Corridors
- Washrooms
- Janitor closets
- Medical clinics
- Veterinary clinics
- Dental clinics
- Storage Areas
- Shower Rooms
- Cannabis and psilocybin production and manufacturing
- Car wash bays
- Mechanical rooms
- Custom garages
